Rakhi,
I have placed the GEMS export and the excel spreadsheet for aligning our ballot types on the MFT site.

James Lasby
Interim Chief Deputy Registrar of Voters - Operations
Registrar of Voters

1. Sample Ballots – Do they only require the standard sample ballots? She wants more information as to what they need. I believe we provided something else for the VIG so it could be formatted but I could be wrong.
    a. Yes there are a couple of sample ballot pages we need for the VIG. I will get samples from the March election that Alyssa did for us
2. Ballot Stubs – Is the printer doing the stubs (which is what is normally done) or is Dominion?
    a. Ballot printing vendor will add the stubs
    b. We will need all files set up to have a front and back even there is not content on the back side
3. Is extract on schedule for 8/21?
    a. It looks like we will be able to pull a file early next week, possible as early as Monday.
        i. There might be minor candidate changes from the certified list published on 8/27

Thanks Kevin,

It will probably go faster if we just do a group email.   If anyone thinks the answers need discussing please let me know and I'll set it up.

Lenny

Subject: Questions - Ballot Programming

Hi Lenny,

Rakhi has some items she wanted me to follow up on from the Election Definition Form.

1. Sample Ballots – Do they only require the standard sample ballots? She wants more information as to what they need. I believe we provided something else for the VIG so it could be formatted but I could be wrong.
2. Ballot Stubs – Is the printer doing the stubs (which is what is normally done) or is Dominion?
3. Is extract on schedule for 8/21?

Thanks,

Kevin
