Subject:	San Bernardino - General 2020 - Ballot Content Reports 1

Importance: High

Hi James,

I have uploaded the following ballot content reports on the MFT in the "\2020\2020-11-03_Presidential\Proofing Reports" folder:

1. Contest Preview Report – this report displays all the contests and candidates as they will appear on the ballot. This report does **not** show the Contest Headings.
2. Ballot Text Report – This report displays the Contests, Candidates and Contest Headings. The data under the **Text** Column and **Ballot Content** row is what appears on the Ballot. This report has no styling or formatting. It is a straight text file with the content only.

Please let me know if you have any problems accessing the file or have any questions.

Regards,
