Update:  
-Residency Analysis of ABS/EV Voters  
These are the two indicators of someone no longer eligible to vote due to residency:  
NCOA = Voters who filed change of address to another state.  
SVR = Subsequent Voter Registration in another state  
Merged = NCOA+SVR Deduped

The SVR component was greatly hampered by the lack of reliable DOB from state voter records and/or commercial vendors, so these numbers are all artificially low. We only matched when we had a full DOB we were confident of.

- Double ABS/EV Voter Analysis  
Voters who cast early/absentee in two+ states, and not including anyone who voted in person on E-Day as that data is not widely available. If it were, these numbers would be much higher.  
Counts are also artificially low due to DOB issues.
