

AFFIDAVIT OF CYNTHIA BRUNELL

CYNTHIA BRUNELL, being sworn, declares under penalty of perjury:

1. I am personally familiar with the facts stated in this Affidavit and, if sworn as a witness, am competent to testify to them as well.
2. I am a registered voter in the State of Michigan.
3. I was a Republican Party poll challenger for the November 3rd presidential election.
4. Prior to election day, I volunteered and participated in on-line training through the Republican Party.
5. On election day, I was assigned as a Republican poll challenger to a late-night shift (9pm to 5am) at the TCF Center in Detroit.
6. I arrived at the TCF Center a few minutes before 9pm on Tuesday November 3, 2020 with my husband, David Brunell, an attorney volunteer for the Republican Party.
7. I was assigned to table 21.
8. Table 21 consisted of a circle of separate work tables, staffed by five (5) individuals who performed designated functions for the opening and reviewing of absentee ballots.
9. There was also supervisor who oversaw the ballot review for Table 21 and a number of others Tables.
10. When I arrived, I was directed by the election official supervisor to sit in the center of the aisleway, 6 to 8 feet away from the circle of tables where the absentee ballots were being reviewed.

11. The election workers sitting at the circle of tables for Table 21, refused to speak to me, only occasionally stating that I should move away, that I was too close or that they weren't allowed to talk to me.
12. No one would tell me their names. One of them invited me to sit near him at his work station but the other workers quickly admonished him – leaving me sitting in the aisleway.
13. Election worker in position #1, slit open the envelope. Position #2 verified the ballot number against the voter registration data base using a lap top computer. Position #3 would pull out the inner envelope containing the ballot and re-verify the name and ballot number. Position #4 opened the ballot, removed the perforated top of the ballot and reviewed the ballot. Position #5 flattened the reviewed ballots and assembled them in bundles of 50 for actual processing.
14. Over the course of time, I was trying to keep track of ballot issues that were identified, but I couldn't see what was going on so I eventually left my aisle seat and started walking around the election workers performing their jobs in the circle of tables.
15. The ballot issues that were identified by the election workers, included ballot numbers not matching, lack of signatures, unregistered voters and ballots which indicated straight ticket selection for both political parties.
16. When I heard of an irregularity, I would write down the issue in order to keep track. As the night wore on, I started writing down names and ballot numbers.
17. Some of the irregularities that I recorded were as follows:
 - a. Voter Denise Brooks didn't sign the envelope or ballot. Her ballot was processed through the electronic ballot counter.

- b. Voter Dervorna Wilson didn't sign the envelope or ballot. Her ballot was processed through the electronic ballot counter.
 - c. Voter Kevin Douglas Merriweather II ballot numbers didn't match. His ballot was processed through the electronic ballot counter.
 - d. Voter Miles Whitfield numbers on envelope and ballot did not match. White tape was placed on his ballot. His ballot was processed through the electronic ballot counter.
 - e. Voter Stacy Denise Prichart didn't sign envelope or ballot . Her ballot was processed through the electronic ballot counter.
 - f. Voter Steven Alante Ousley Scott born in 1929 was not a registered voter. His ballot was processed through the electronic ballot counter.
18. I was never afforded an opportunity to look at any of the ballots at any point in the process, in order to ascertain for myself, if there were irregularities. I was forced to keep a distance. When the election workers identified a problem with a ballot, I would try to observe it, but was constantly told to keep a distance and if I asked to see something, they told me that were not permitted to talk to me.
19. On eleven (11) occasions, irregularities were identified. Those ballots were not segregated. On a number of occasions, the supervisor directed that some of the flagged ballots be returned to the election worker in position #3 who was instructed to place white tape over some portion of the flagged ballot. I could not identify what specific information was covered by the tape. I assumed that the white tape indicated that the ballot was flagged and would not be processed. The ballots with white tape were not separated or segregated but were bundled with the other ballots for processing and counting.
20. There was a box for rejected ballots on one of the tables, but no ballots were ever placed into the box. The supervisor instructed the worker at position #3 not

to use the rejection box because the process for dealing with flagged or irregular ballots had changed.

- 21. Twice during my shift, the supervisor removed a stack of ballots from Table 21 after they were opened at position #1 but before they were verified at position #2. I don't know what she did with those ballots but I know they were not verified or reviewed by Table 21.
- 22. To my surprise, all of the 268 ballots reviewed by the workers at Table 21 were electronically processed and only 4 were rejected. Based on the irregularities that were identified by the election workers, I had expected that at least eleven ballots would have been rejected.

AFFIDAVIT OF DAVID PIONTEK

David, being sworn, declares under penalty of perjury:

1. I am personally familiar with the facts stated in this Affidavit and, if sworn as a witness, am competent to testify to them as well.
2. I am a registered voter in the State of Michigan, in the city of Livonia.
3. I was a Republican Poll Challenger on November 4, 2020 at the TCF Center in Detroit Michigan.
4. I began observing at approximately 10:30 am at table 51.
5. There was a bin marked "problem ballots" and I asked the table captain where those ballots were going. The table captain stated those ballots were going to be further looked at. I asked if I could get the numbers of those ballots, and the table captain stated that he would only allow me to get the number of the top ballots, because he wasn't going to allow me to slow the process down. I followed the "problem ballots" and observed a poll worker drop them on the central processing table with no supervision.
6. The table captain, George, stated there were 32 "problem ballots." I stated that I wanted to challenge those ballots that they refused to allow me to inspect. I further stated that I would like the challenged ballots to be recorded in the poll back, but George refused and said "we will put it in the computer."
7. I proceeded to write an incident report and handed it off to the Michigan Republican Party at the TCF Center.
8. After a lengthy break, the poll workers returned to begin counting the overseas military absentee ballots.

- 9. On two separate occasions, I witnessed a poll worker make a mistake while duplicating a ballot. The poll worker set the invalid ballots aside. The table captain George brought two new ballot and the poll workers began duplicating the ballots, but did not properly secure the two spoiled ones. I repeatedly asked where those spoiled ballots would go, and George had no answer.
- 10. At approximately 7:52 pm, the problem ballots that were sent to the central processing table came back to table 51, where I was a poll challenger. The poll worker began scanning a problem ballot and a computer prompt with the words "unlisted person" came up. I witnessed the poll worker manually enter six of these ballots into the system and assign each one a fictitious birth date of 01-01-1900. Since, the poll workers were moving so quickly, I was able to capture just one name, " _____ ." Her ballot number was 5430.
- 11. Throughout the day, I witnessed a pattern of intimidation, secrecy, and hostility by the poll workers. Poll workers would cheer, jeer and clap when poll challengers were escorted out of the TCF Center. There seemed to be collaboration between the democratic poll challengers and the City of Detroit poll workers.

being sworn, declares under penalty of perjury:

1. I am personally familiar with the facts stated in this Affidavit and, if sworn as a witness, am competent to testify to them as well.

2. I am a registered voter in the State of Michigan.

3. November 4 - TCF center around 2-10 PM

- no republican representation for poll workers during transferring military ballots
- differences between numbers on the ballot as on the envelope
- a number of people / ballots entered in the system that were not on the computer system or the paper list.
- denied access to the ~~room~~ processing room
- processing a ballot that had tabs ripped off
- a vast difference between the treatment of the dems/non partisan vs GOP
- many of my friends that wanted to help were locked out of the building
- entire room erupting in applause when a GOPer kicked out

- Military ballots 24 out of 26 ballots were for Biden RP

AFFIDAVIT OF Elizabeth Williamson

Elizabeth Williamson, being sworn, declares under penalty of perjury:

1. I am personally familiar with the facts stated in this Affidavit and, if sworn as a witness, am competent to testify to them as well.
2. I am a registered voter in the State of Michigan.
3.
 1. On the morning of Wednesday, November 5, 2020 I went to TCF in Detroit to assist with the mail-in ballots being counted. After a brief training, I was sent into a large room. I stood by a table of ballot counters. I was told I could not stand next to another Republican and we were to stand next to a democrat.
 2. It took me about 20 minutes to understand the process of scanning the ballots. I realized many of the ballots did not register on the computer screen. I asked about the process. A ballot counter, the supervisor, explained these people were not in the system but were on the paper generated list.
 3. I could not see anything that was on the envelope or the paper generated list as we were told to stand back 6 feet. I asked if I could see it. The scanner at the table yelled at me and told me I could NOT talk with her, only the supervisor. So another Republican came with me and we challenged the ballot we could not see. The person scanning stood up immediately and told us to get back so she could talk to the supervisor privately without all us staring at her.
 4. We walked away. Finally we were given the ballot number. I wrote it down to challenge it. I am not certain where the ballot went after the challenge. There were many, many more like that. Names of people not in the system, checked off from the paper generated list, and moved on.
 5. I was not allowed to stand within 6 feet to see what was on the list, the envelope or the ballot. It was all very mysterious. There was a high level of intimidation and it was evident they did not want anyone to witness the way they counted the ballots.

AFFIDAVIT OF EMILY A. STEFFANS

EMILY A. STEFFANS, being sworn, declares under penalty of perjury:

1. I am personally familiar with the facts stated in this Affidavit and, if sworn as a witness, am competent to testify to them as well.
2. I am a registered voter in the State of Michigan.
3. On November 4, 2020, I volunteered as a poll challenger for the GOP.
4. I arrived at the TCF convention center between 8 and 8:30 am.
5. After a temperature check at the entrance, I was given directions to room 260 which is the room where GOP volunteers went to become credentialed as a challenger.
6. After about 20 minutes of training I received my credentials and paperwork and wristband for entry.
7. I entered the ABC board room.
8. A gentleman with the GOP walked me around the room and explained the process and what to look for.
9. There were not enough GOP volunteers present to have one at each table.
10. I went table to table witnessing the process.
11. I was told during my training that only one volunteer per party was allowed to observe a table at any given time.
12. In many instances there were more than one democrat volunteer challenger at a table.
13. When I moved from table to table I was followed by two to three democrat volunteers.
14. I know they were democrat volunteers because they had green dot stickers on their clothing.
15. Within the first hour I observed poll workers duplicate a ballot.

16. During the process two workers used their bodies to block seeing the duplication process.
17. On numerous occasions I was told by poll workers that I needed to stay six feet from them. When I asked if I could come closer because I could not see the screen to verify whether the voter and ballot numbers matched I was told I could not.
18. On numerous occasions, I was told I could only stand at the screen while democrat observers were permitted to move freely around the table.
19. When I asked a question about why a ballot was being placed in a particular box I was told I was not allowed to talk to the poll worker and did not receive an answer.
20. Democrat volunteers were verbally aggressive with me.
21. I was accused by a democrat volunteer of being part of a “cult” for my support of Trump.
22. I witnessed this individual putting large pieces of cardboard over the window so people trying to get in could not see what was happening on the inside where I was.
23. I observed a republican contender being prevented from watching during a duplication. He tried to get closer to the table and move around so he could see, but when he did, three people swarmed him to block his view. The table leader told him to move back and that he was close enough. He said repeatedly that he needed to see the duplication but they would not let him. A man with an election watcher badge told the poll workers they needed to let him see it and the poll workers responded by telling the man with the badge that he needed to go away.
24. A worker arrived at the table and joined the group of people pushing the GOP challenger back. At that point, I intervened and said to the poll workers that they

needed to let the GOP challenger see the duplication. In response, that worker went and got the police. When he returned with them he said I needed to stop talking and that if I did not I would be escorted out.

25. At that point I had watched two GOP people escorted out by the police. When they were escorted out democrat volunteers and poll workers at the table cheered.

26. This made me afraid to further pursue the issue with the duplication any further and to challenge any ballots.
